Pond Field Day May 21

Believe it or not, the day is fast approaching when Austin and the surrounding counties will have more acres of farm ponds (stock tanks) than row crops.

It seems that dozer operators have a steady business especially from new landowners that want to build a pond.

The Natural Resources Conservation Service (the old Soil Conservation Service) has become famous over the years for designing ponds for landowners, and the idea of hiring a pond consultant was unheard of until just a few years ago.

Now pond management is big business, and for the landowner, it can be a bigger headache than a form of relaxation.

Proper management is the key to making your pond into what you want it to be.

A Pond Management Field Day will be held on Friday, May 21 at the St. John's Lutheran Retreat Center near Bellville.

The Field Day will begin at 1:30 p.m. with registration and conclude at 5:30 p.m. Aquatic weed control, pond construction, stocking recommendations, management of shoreline and tank dam vegetation, and fertilization will be the topics of discussion.

The standard registration fee of \$10 applies for attending the program and anyone interested in attending is asked to contact the Texas AgriLife Extension Service Austin County Office and let us know you're coming.

Three CEU's will be given to pesticide applicators.

Anyone wishing to have pond-weeds identified is asked to bring their weeds freshly pulled and in a mason jar or zip lock bag.

For information, contact the Extension Office at (979) 865-2072, or email us at austin-tx@tamu.edu.
