Published at Garwood, Colorado County, Texas, every Friday morning.

Subscription Rates . . . \$1.00 Per Year.  
Advertising Rates Upon Application.

Friday Morning, April 3, 1914.

### Did You Ever Stop To Think Dollars?

Did you ever stop to think that you do four things, just four and no more? You think; you remember; you imagine; you act. When you learn to think better, remember better, imagine better or act better, you are increasing your efficiency, and, therefore your income. You may feel you are very successful now. Suppose you are; it isn't a question of what you know, but of how beneficial a practical business education will be to you in addition to what you already know. Did you ever stop to think that eighty-five per cent of the men of the men of this country are only earning \$15 per week or less? That ninety two per cent fail in business between the ages of 40 and 50? That ninety-five per cent have no money at the age of 60? We have been very successful in getting men out of the eighty-five, the ninety-two and the ninety-five per cent class. Why not let us help you? We have been marvelously successful in raising salaries, as is conclusively proven by the letters in our catalog from former students. You will agree with us that to violate a part of the laws of business means partial failure, and to violate all the laws means complete failure. You are also aware that to observe part of the laws of business means partial success, and to observe all of the laws means complete success. Our aim is to help you observe a higher per cent of the laws of success, and, therefore, enable you to be nearer the maximum success. The late Prof. James of Harvard declares that the average man only uses ten per cent of his brain power. Suppose you are twice as capable as the average man? Even that would mean you are only using twenty per cent of your maximum possibilities. The purpose of our course is to produce a maximum of proficiency with a minimum effort. The business world want thinkers and doers. There's a famine of high priced men today; there are thousands of men worth a thousand dollars a year, but only a few worth ten thousand a year. Be the latter kind of a man; you can if you will. We know that a man is worth only about \$2.00 a day from the chin down, selling muscle, but as

high as a hundred thousand dollars a year from the chin up, selling brains. Be a chin upper and sell the higher type of brains; you can't afford to be a chin downer; there's no room for such a man in the high salaried class. Take our thorough practical course of Bookkeeping, Business Administration and Finance, Shorthand or Telegraphy, learn how to think, to remember, to imagine and act. Our large catalogue is free for the asking, if you will only fill in and mail the following blank, giving your name and address.

Tyler Commercial College, Tyler, Tex.

Wonder when the commissioners' court of Colorado County is going to give the printing offices of the county another bid on the county's printing? If we understand it correctly, this matter should be put out to a bid every year, but its been so long since the papers have had a chance to bid on this work, we've about forgotten really how many years it has been since we were given a bid.—Eagle Lake Headlight.

The Express moves that the honorable Commissioners' Court of Colorado county gives all the four papers of the county an opportunity to bid on the county's printing and advertising in May, which if we remember correctly, is the month the printing is let out to the lowest bidder.

There is nothing purer than home-made ice cream. I have the freezers to make it with. Come and see. Racket Store.

J. H. Lowry ("Buttermilk Jim") who is a candidate for Congressman at-Large is being favorably mentioned for the office by the papers all over the state. There's not a more upright, straight-forward, conscientious man in Texas than Jim Lowry, and we wish him success. He is a scholarly gentleman and a fine orator, but not a politician. It has come to a point in Texas that only the "professional politicians" can be elected to office, but Mr. Lowry's candidacy is appealing to the thinking people all over the state, and in this campaign we are inclined to believe that some of the politicians are going to bring up the rear.—Eagle Lake Headlight.

Your patronage will be appreciated. Horses boarded by the day or week.

## GEO. REDFORD

MERCHANT TAILOR

Fit, Style and Workmanship Guaranteed

Main Street.

Eagle Lake, Texas.

### MORE TEXAS CONVICTS TO WORK ROADS

Paroles for Prisoners Now Being Prepared—Many Counties Desire Them for Road Work.

Austin, Tex.—One hundred and fifty more convicts will leave the prison walls behind and go out into the State as laborers on county roads if Governor Colquitt is able to determine on that many whom he believes may be chosen for the work. The success of the Lindale, Smith County, road project has been a boon. Thursday D. M. Reedy requested the governor to parole 50 convicts that they might be used on road work in the Tyler district, where a \$300,000 road bond issue was recently passed. Limestone County has applied for 30 convicts to work on the roads in that section. The governor has already granted the application of Gregg County for 30 men and these are to be sent in the near future. The paroles are now being made out. On the State railroad 40 men will be put at work, working on the roadbed. This list has been prepared and the paroles are likewise being made out.

The governor believes that the method of handling a certain percentage of convicts has at last been found. They are allowed good sleeping quarters, good food, receive \$7.50 per month as their share of the work and the fresh air and hard work, together with the privilege of discarding the stripes, is working towards a reformation in prison methods and handling of men.

The one trouble at this time is the release of many of the men from the prisons. Those who want the work on the roads are many of the unskilled workmen and their withdrawal from the shops in several of the institutions will cripple the forces.

### GOVERNOR ISSUES QUARANTINE PROCLAMATION

Prohibitive Lines Are Established Along Gulf Coast and Rio Grande Border to Protect Against Disease.

Austin, Tex.—The governor Saturday issued his annual quarantine proclamation declaring that quarantine shall be established on the gulf coast and Rio Grande border on and after April 1 and it shall continue until closed by proclamation. The proclamation follows:

"Be it known that I, O. B. Colquitt, governor of the State of Texas, by authority vested in me by the laws of this State, do hereby declare that quarantine shall be established on the gulf coast and Rio Grande border on and after April 1, 1914, and it shall continue until closed by proclamation.

"1. Said quarantine shall apply to all vessels, railway trains, persons or things coming from places infected with yellow fever, smallpox, bubonic plague or cholera, and all places south of 25 degrees north latitude shall be considered infected unless proof to the contrary be submitted to the state health officer and special exemption be granted to said places, and persons from such places are prohibited from entering this state within a period of time prescribed by the state health officer.

"2. I further declare quarantine against any person or persons infected or liable to be infected with yellow fever, smallpox, bubonic plague, cholera, leprosy or other dangerous, communicable diseases, either within or without the state, and direct the state health officer and health officers of the counties and cities to establish local quarantine and maintain isolation around any and all such persons whenever in their opinion it is necessary, and the state health officer is hereby authorized to promulgate and enforce proper rules and regulations for governing same."

### FIRST RATES GIVEN TEXAS FISH HATCHERIES

Distribution Must Be Made to Stock Streams and Lakes—Order Effective April 1.

Austin, Tex.—The Texas state bureau of fish hatcheries has been given its first rate for the distribution of young fish for stocking streams and lakes of this State, effective April 1. The railroads have joined in an application for a low rate both for the fish and for the attendants who travel with the fish and plant them. The same rate is also made available for fish distributed by the federal fish hatcheries. There is one state hatchery in Texas at Dallas and one federal propagating plant at San Marcos. The commission's order adopting this rate is as follows:

"When the bureaus above mentioned furnish special cars or when baggage cars are furnished by the railroad company the charge will be at the rate of 15c per mile for the car, with a minimum charge of \$10 for each movement. The above charge will be considered as compensation also for the passage in both directions of not more than four attendants or messengers, and also for the return of cars in accordance with the custom justifying the return of empty cars after they have moved under load.

"Less than carload: When shipments, not exceeding fifteen cars or carriers, are handled in the regular baggage cars or on any passenger train, charges will be assessed at the established first-class tariff freight rate, estimated weight 100 pounds per car or carrier. Said charges will be considered as compensation also for the passage in both directions of one messenger or attendant and for the return of the empty cans or carriers.

"Limit for the return of messengers or attendants will be ten days.

"All authorities heretofore granted to the lines of railway above named and covering the handling of young fish for account of the United States bureau of fisheries are suspended and hereby canceled."

### LEEVES WILL RECLAIM LEAGUES OF LAND

Districts Along Trinity Have Been Formed Which Are Intended to Benefit 14,000 Acres.

Austin, Tex.—O. W. Finley, a civil engineer from Ennis, conferred this week with Arthur A. Stiles, state reclamation engineer, relative to the engineering features for two levee districts on the Trinity in Kaufman and Henderson counties, a short distance below the mouth of the east fork. These districts will adjoin and will constitute one engineering undertaking.

They contemplate one levee slightly over nineteen miles in length, with an average height of about eight feet, and will reclaim approximately 14,000 acres of rich valley lands which are now subject to overflow. The districts have been formed and will soon vote to issue bonds aggregating \$145,000 for the levee construction.

The districts are making good use of the excellent surveys and maps made under the supervision of the United States engineer's office at Dallas, in co-operation with the state reclamation department.

Mr. Stiles is in receipt of a telegram stating that Bois d'Arc Creek, in Fannin County, has gone on another rise, the second this year, and higher than that in February. This stream is now being surveyed with the view of levee construction to reclaim its fertile valley.

### Lufkin Abolishes City Charter.

Lufkin, Tex.—The corporation of the city of Lufkin was abolished Wednesday by a vote of 143 to 8.

The subscription price of this paper is only \$1 per year.

## POSITIVELY NO MORE CREDIT IN FEED DEPARTMENT
