Six Days' Session of Farmers' Institute Will Be Conducted at Eagle Lake.

The Texas Agricultural and Mechanical College, through arrangements made with the United States Farm Demonstration department, will conduct a six days' session of summer school for farmers, farmers' wives and boys and girls, in a few centrally located towns in Texas. Through the efforts of Mr. O. G. Kolberg, farm demonstration agent for Colorado county, aided by the public spirited members of the Eagle Lake Business League, one of these summer schools for farmers will be conducted at Eagle Lake, beginning Monday July 6th, and continuing through the week and including Saturday, July 11. All sessions, lectures, demonstrations, stock judgments, etc., will be free to all who wish to attend, the expenses incidental to the school being assumed by the Business League of Eagle Lake. Farmers from every part of Colorado county and from other counties not fortunate enough to get this school are invited to attend. Although full information as to the program for the six days' session can not be made public at this time, the demonstration agent announces the following:

Professor in charge, J. W. Ridgeway, professor of dairy husbandry, A. & M. College, and three other instructors, probably Dr. G. S. Fraps, expert on soils and fertilizers; Dr. Marseller, of the veterinary department, and

others. Among the subjects on which particular instruction will be given are the following: Dairying, stock-raising—cattle, horses, mules and hogs—feeding of farm animals, silos—selection of type and building; growing of silage crops; value of silage compared with other feeds, stock judging, prevention of and treatment of diseases of farm animals, prevention and control of insect pests, plant diseases, soils, building of soils, liming, fertilizing, cotton growing and grading cotton, corn growing, selection of types, seed, fertilizing, drainage, irrigation and farm terracing to prevent erosion, rotation of crops and planning of farm industries, and horticulture. It is also expected that special lectures and instructions of particular interest and practical benefit to women will be given, along the lines of domestic science, dairy work, poultry raising, farm home helps, etc.

Boys and girls are especially invited and some interesting and valuable instruction will be afforded them. Already lists for enrollment have been circulated and almost without an exception every farmer and stockraiser who has been told of the school, has been signed for enrollment and for attendance. Everyone desiring to attend any or all of the sessions will greatly assist by sending in their names to Farm Demonstration Agent Kolberg at Eagle Lake, and all can help in making this school a great value to themselves and their neighborhood by attending and inducing others to attend. Remember it costs nothing except our time which will be amply repaid by practical information and instruction.

It marks a great advance—this bringing the college to the people in neighborhood centers like Eagle Lake. There can be but few towns to enjoy this advantage, for the time and number of instructors available are limited. It is the first opportunity of its kind and free to all.

Old Bernardo Citizen Died Sunday Night.

Mr. Anton Drymalla died at his home, about eight miles from Eagle Lake, in the Bernardo section, Sunday night at one o'clock. The funeral took place at Mentz Monday afternoon. The deceased was about 82 years of age and has lived in the Bernardo section for about 30 years, having moved from Schlesien, Austria. He was unable to speak either the English or German languages being able to use only the Bohemian language. He is survived by a wife and six grown children, and leaves a brother, Sebastian Drymalla, who lives near Soaly. —Eagle Lake Headlight.

NADA NEWS.

Mr. Alvin Wobbe met with a very painful and serious accident last Wednesday by having two of his fingers mashed while repairing a gasoline engine. While at work on the engine which was running at full speed the glove on his right hand in some way got hold in the cog wheels, pulling his fingers into it, and but for the fact that he managed to stop the engine suddenly there is no doubt but what his hand would have been badly mashed. His brother, Mr. Henry Wobbe, who was near him, immediately took him to Nada where the services of Dr. J. A. Halamick were required, who after carefully examining the injured fingers, amputated the third finger at the first joint, it being very badly mangled, while the little finger was saved, which was not so badly mashed. We are very sorry that our popular young assistant blacksmith met with this painful accident and hope that his injured fingers will soon be healed.
